 Erode, Tamil Nadu, India

Profile

Experienced Backend Developer with **3+ years** of hands-on experience in **Python, Django** and **AWS**, along with proficiency in **front-end** web development. Passionate about continuous learning and exploring diverse technology stacks. Proven **problem-solving** skills, effective communicator, and a track record of achievements in contests and hackathons. Currently pursuing a BE in Computer Science and Engineering at Velalar College of Engineering and Technology (2021 - 2025) while actively **freelancing**.

Professional Experience

Freelancer (5+ Projects)

Sep 2022 – present

Infomin Solutions

- Enhanced **skills and adaptability** through diverse freelance projects.
- Successfully **acquired clients** from **social media** and **personal networks**.
- Effectively managed **self-initiated** and client assignments, delivering **innovative solutions**.
- Skillfully oversaw projects from idea to execution, demonstrating a comprehensive grasp.
- Cultivated **lasting client** relationships by understanding unique needs and ensuring **satisfaction**.
- Maintained strong, **positive client relationships**.

Backend Developer Intern

Jan 2024 – Jun 2024

ATmega Software Technologies LLP

- **Solely managed** backend development and cloud deployments for the company.
- Successfully completed **5+ client projects**, overseeing the entire backend process.
- Led backend development efforts, contributing to 100% of backend-related tasks.
- Significantly contributed to the company's growth, driving a **25% increase** in overall performance.
- Utilized full skill set to **enhance project delivery** and operational efficiency.

Works

Project AJA

Nov 2023 – present

academy.askjhansi.com

- Developing an **interactive education platform** with **Django, Celery, MySQL, Redis** and Docker integration.
- Implemented a robust **CI/CD pipeline**.
- Leveraged the **Whatsapp Cloud API** and **Instamojo Payment Gateway** for seamless communication and secure transactions.

ASK Jhansi Project

Jan 2022 – Jun 2022

www.askjhansi.com

- Built a complex **e-commerce platform** with **multi-level** stores using **Flask, MongoDB**, and **multiple payment gateways** (3+).
- Implemented dynamic **user-based access** controls.
- Utilized **Google Sheets API, Telegram API, and WhatsApp API** for enhanced functionality and communication.

API Scheduler

Aug 2023 – Oct 2023

github.com/Info-lamin/flask-celery-scheduler

- Created a precise **API scheduler** using **Flask, Celery, Redis, MySQL** and **Docker**.
- **Automated HTTP requests** to API endpoints at specified timestamps, ensuring task accuracy.
- Employed Redis for efficient **task queuing** and MySQL for **data storage**.

Info Panel

Apr 2023 – Jun 2023

- Created a web-based platform for **instant website deployment** on **Ubuntu** using **Django** and **DevOps** principles including **CI/CD** pipelines.
- Supports various technologies like **Django**, **Flask**, **PHP**, **Node.js**.
- Demonstrated expertise in **web development** and **DevOps**, emphasizing **problem-solving** skills and innovation.

CashWha

Sep 2022 – Jan 2023

- Developed an advanced **WhatsApp solution** for **commercial** use with **Django**.
- Integrated with **WhatsApp's Cloud API** to enable advanced WhatsApp functionality.
- Built a backend using **Django**, **Django Rest Framework** and **Django Channels** with **Daphne**.
- Developed a frontend with **Flutter** for **Android** and **React** for the **web**.

AJ Garden [🔗](#)

Jan 2023 – Mar 2023

garden.askjhansi.com

- Developed a **Garden Catalogue website** with **Python**, **Django** and **Bootstrap**.
- **Simplified** plant and flower browsing, addition, and image management.
- Improved the **online gardening** experience.

Skills

Web Backend

Python, Django, Flask, Node.js, Express.js.

Web Frontend

HTML, CSS, JS, jQuery, SASS, React.js, Next.js

DevOps

Docker, GitHub Actions, Linux

Cloud Computing

AWS, Linux, Apache, Nginx, EC2, EB, S3, RDS

App Frontend

Flutter

Smart Prompting

Googling, AI Prompting, Stack Overflowing

Volunteer

Grandmaster (President)

present

Club PyLamp, VCET

- Spearheaded **technical leadership** within the club, driving innovation and fostering a culture of excellence.
- Led a **team** of like-minded enthusiasts, nurturing their skills and guiding projects to success.
- Organized **tech workshops** and events, promoting knowledge sharing and skill development.
- Played a pivotal role in enhancing the club's **technical prowess** and reputation within the campus community.

Awards

Code-()-Feast 1.0 Contest Winner (3rd Place)

May 2024

Placement Cell, Velalar College of Engineering and Technology

Code Beast Contest Winner (1st Place)

Apr 2022

KSR College of Engineering and Technology

Education

BE Computer Science and Engineering

2021 – 2025

Velalar College of Engineering and Technology (present)

Currently pursuing final year.
